

FULL BODY SKiN CHARACTERS

MAGiC LiGHT PUPPETS

The Magic Light Puppet Company have a diversity of skills which enable them to operate not only Marionettes and Hand puppets but in the Chuckle Brothers shows and major Theatre productions specialize mainly in UV and Black Art using puppets that range from 3 foot hand puppets up to 9 foot full body costumes.

The puppets are not only performed by them but are designed and constructed by Stuart and Jayne Loughland (Safire Illusionists) in their puppet workshop and studio.

They have performed with their puppets extensively in UK Theatres over the past 5 years mainly in top UK Theatre touring shows, Variety, Musicals and Pantomimes.

In these workshops, students will learn the skills required to work in a full size skin costume. We will look at the physicality and conveying different emotions through restricted movement without the use of facial expressions. Students will get a chance to wear a costume and work with limited vision in the context of a live stage show.
